## YOUR IDEAL HOME

For the purpose of assisting our customers to chose their new home, our architects have collected over 200 suggestions, any one of which can be remodelled to suit your ideals and your pocketbook.

You see the exterior design—the interior floor plans—you can select from 200 models—you have your home as you want it to be—and you see the very material that will go into that HOME before you pay out a cent. You know exactly what you will get. There are no "extras"—no troubles over breakage or errors in filling. We—your own fellow-townsmen—stake our reputation on the goods we sell and the services we render. If we can do exactly as we claim, then that is the sort of service you want. And it doesn't cost you a cent to prove to yourself the truth of our statements. We want you to come in and see us—personally—and what we have for you. If this is not convenient, let us know and we will come to you. Remember that our idea of SERVING is Satisfying You—AB-SO-LUTE-LY.

**We have everything that a modern retail building material yard should have.**

It is our aim to carry at all times a stock of goods commensurate with the needs of this community. Above all we keep constantly in touch with the leading markets so that we are able to get the Best Grades at the Lowest prices. Our stock is naturally very complex, consisting as it does, of Lumber, Lath, Shingles, Roofing, Sash and Doors, and, in short, of most everything that enters into the construction of ab ulding. It is our ambition to make our business a credit to the State. Yet these words will tell you less than we DO. Come in and visit us. That's the best proof of all.
